*The Low/Moderate Income Summary Data (LMSD) issued by HUD indicates that the Township has a "total low and moderate income universe/population" of 53,215 persons. The Total Low/Mod Universe is not necessarily the total population as based on the U.S. 2010 Census, but the maximum number of persons that have the potential of being classified as low/mod using 2011-2015 ACS data. HUD's formula for calculating low/moderate income persons excludes persons residing in group quarters. The group quarter population includes persons under formally authorized supervised care or custody such as correctional institutions, nursing homes and juvenile institutions. It also includes non-institutionalized persons living in group quarters such as college dormitories, military quarters, and group home.
